Laith Dabbas

AI Engineer Intern @ Cyborg | AWS Practitioner | Machine Learning |
Deep learning | NLP | Computer Vision
AI Salt, Balqa, Jordan

Summary

I am a recent graduate in Artificial Intelligence & Robotics from Al-Balqa Applied University.

During my academic journey and internships, I developed strong hands-on experience in Python, Machine Learning, Computer Vision, and Natural Language Processing (NLP). I completed internships at Orange (AI & Data Analytics) and The Hope International, where I worked on real-world projects involving data analysis, model building, and medical image captioning.

I have built multiple AI-powered applications, including a Streamlit web app for automated chest X-ray captioning, and participated in competitions such as Project2Market and SUMO Robot.

I'm passionate about solving real-world problems with AI and always eager to learn and grow. I'm actively seeking opportunities in AI, Data Science, or Machine Learning – whether full-time or internships.

Skills: Python, SQL, Scikit-learn, OpenCV, TensorFlow, Power BI, Git

Feel free to connect or reach out if you're working on exciting AI projects or have opportunities available!

Experience

Cyborg Automation Hub

AI Engineer

November 2025 - March 2026 (5 months)

Amman, Jordan

Orange

Data Analyst

February 2025 - May 2025 (4 months)

Amman, Jordan

Education

Al-Balqa Applied University (BAU)

Bachelor's degree, Artificial Intelligence · (October 2021 - July 2025)
